

TruthGraph: Evaluation Execution Efficiency

Mean response time

20.24s

A horizontal bar chart with a purple bar. The bar's length corresponds to the value 20.24 on the x-axis. The value '20.24s' is written in white text inside the bar.

Metric	Value
Mean response time	20.24s

Median response time

19.12s

A horizontal bar chart with a blue bar. The bar's length corresponds to the value 19.12 on the x-axis. The value '19.12s' is written in white text inside the bar.

Metric	Value
Median response time	19.12s

Claims per minute

2.96

A horizontal bar chart with a green bar. The bar's length corresponds to the value 2.96 on the x-axis. The value '2.96' is written in white text inside the bar.

Metric	Value
Claims per minute	2.96
